

Buell BUGLE

September 22, 2023

Save the Date...

- **Tuesday, September 26th**-HT Back to School Night @ 5:30 pm
- **Friday, October 6th**-No School, Teachers' Institute
- **Monday, October 9th**-No School, Columbus Day
- **Tuesday, October 17th**- Picture Retakes

A Note From Mrs. Buell...

We are so excited to invite our families back to HT next Tuesday from 5:30-7:00 pm for our Back to School Night! We know that Kindergarten parents have had a few opportunities already to come to our classroom, but we invite you to come for this unique opportunity to learn more about our curriculum and your child's day! Your child gets to be the leader this time! This special night really gives the children a chance to share and to be proud of their classroom and their school! We hope to see you then!

This Week in Kindergarten...

-  We read a story called A House for Hermit Crab. We learned all about the setting in stories!
-  We drew pictures to show the setting in books we read. We picked out setting pictures and drew characters that we might find in those settings!
-  We learned to identify the numerals 7-10, and we played many new math games to practice this skill! We practiced writing our numerals!
-  We learned about the needs of animals. We learned that animals need food, water, air, shelter, and love.
-  We learned about making mistakes. We talked about how we all make mistakes and that is how we learn! We practiced using encouraging words to say to ourselves and others.

Next Week in Kindergarten...

We will take our first math assessment! The children will do a basic test in a small group. They will also do some activities using math manipulatives with Mrs. Buell to show what they know. We will begin our big Apple Unit! See the attached note about apples! =)

What can we do at home...

Here are some things to try at home to support your child with his/her school learning:

- Look at the pictures on our Bloomz app with your child. Ask him/her to tell you his/her classmates' names. Ask questions about what is going on in the pictures.
- Encourage your child to help with daily chores and routines. Talk about what you do "first, next, and last".
